امتحان الشهر الأول

Q1: Read the following text carefully, and then answer the questions.

Do you think that scrap or rubbish is a problem on Earth? Well, it's also a problem in the sky. On a clear night, look up into the sky. What will you see? You will see the Moon, the stars and the satellites. Although you won't see it, you will also be looking at the largest scrapyard in the solar system.

Look at this picture. There are tens of millions of pieces of rubbish. Scientists call "this "orbital debris.

You will find the most unusual things floating around the Earth: a camera, a screwdriver, and even a glove! Most of this rubbish comes from satellites and rockets that stopped working and fell apart. This orbital debris would weigh five million kilogrammes on Earth.

This scrapyard could cause serious problems. In August 2008, when a space shuttle returned to Earth, it had small but dangerous holes in it made by pieces of space debris. So, let's start thinking of ways to tidy space up!

1- What will you see if you look up into the sky on a clear night?

.....

2- Orbital debris is rubbish floating in the outer space and consists of many things. Mention three things you will find in the orbital debris.

.....

3- How does rubbish come the outer space?

.....

4- Write down the sentence which shows that orbital debris is tremendous and very huge.

5- Give an example on how the space scrapyard is very dangerous.

6- Find from the text the following.

An adjective →

A question in the future simple form →

A past simple verb →

A plural noun →

A preposition →

Q2: Read the definition and complete the missing letters.

1- To move around or make something move around like a wheel. (R_v_lve)

2- A vehicle that is designed to go into space and return to Earth several times.

(S_ace sh_tt_e)

3- An instrument that is used to show directions, with a needle that always points north. (Co_pa_s)

Q3: Fill in the blanks with the correct words from the box.

Solar system – spaceship – astronaut – satellites – to float – catapult

- 1- _____ is a device used to throw things with great force.
- 2- Scientists send _____ into the space to collect information and send TV signals.
- 3- People can go to space by a mean of transport which is called a _____.
- 4- _____ is all space, including all the stars and planets.
- 5- Once you reach space, you will start _____ and enjoy the zero gravity.
- 6- An _____ is the person who works in the space and deals with spaceships.

Q4: Rewrite the following sentences into the form that is required.

- 1- I won't go to school tomorrow (+) → from negative to affirmative.

.....

- 2- Huda will visit her best friend soon (?) → from affirmative to interrogative.

.....

- 3- Will Peter get good grades in his exams? (-) → from interrogative to negative.

.....

Q5: Choose the correct alternative from the given choices.

1- Travelling by cars _____ faster than travelling by planes.

a- will be

b- is

c- won't be

d- won't

2- _____ people _____ on Mercury one day?

a- do/live

b- won't/lived

c- will/lived

d- will/live

3- Do you think Travelling around the solar system _____ possible?

a- be/will

b- will be

c- will being

d- is/be

Q6: Write three sentences describing an event that you and your family will do on the next holiday. Use (first, then and finally) to join your sentences together.

.....

.....

.....

.....

wishing you best of luck

صفحة الحل Answer sheet

Question 1

- 1- I will see the moon, the stars and satellites and also you will be looking at the biggest scrapyard in the solar system.
 - 2- A camera, a screwdriver and a glove.
 - 3- Rubbish comes from satellites and rockets that stopped working and fell apart.
 - 4- The orbital debris would weigh five million kilogrammes on Earth.
 - 5- In August 2008, when a space shuttle returned to Earth, it had small but dangerous holes in it made by pieces of orbital debris.
 - 6- An adjective → clear – unusual – serious – dangerous.
- A question in the future simple form → What will you see?
- A past simple verb → stopped – returned – made.
- A plural noun → satellites – scientists – rockets – problems.
- A preposition → in – on – of.

Question 2 1- Revolve 2- Space shuttle 3- Compass

Question 3

- | | | |
|-----------------|--------------|---------------|
| 1- Catapult | 2- Satellite | 3- Space ship |
| 4 -Solar system | 5- To float | 6- Astronaut |

Question 4

- 1-I will go to school tomorrow (+)
- 2-Will Huda visit her best friend soon (?)
- 3-Peter won't get good grades in his exams (-)

Question 5

- 1- c- won't be
- 2- d- will/live
- 3- b- will be

Question 6

جمل مقترحة تم ربطها بأدوات تسلسل الأحداث - Suggested sentences

First, my father will book the tickets to Aqaba. Then, we will pack our luggage. Finally, we will drive to the south to enjoy the sea.
