READING

(10 Marks)

Q1: Read the text and answer the following questions:

Life on The International Space Station: The International Space Station (ISS) is a satellite. **It** orbits the Earth once every 90 minutes, traveling at 28,000 kilometers per hour! But it's different from a normal satellite because about ten astronauts live on it. The astronauts on the ISS have a lot of jobs to do every day. **They** do experiments to find out more about space. They use special tools to fix the station, and if they need to fix something outside, they put on their spacesuits and do a spacewalk! When they aren't working, astronauts read and take photos. There's one more important thing for astronauts to do: exercise! People are weightless in space, so their muscles don't work hard and can become very weak. Astronauts need to exercise for two hours a day!

Hi [Friend's Name],

You asked for some advice about good places to shop in my city. Here are some shops you should visit in Amman. **At the market:** Go to **Al-Balad Market**. You can buy spices, jewelry, and cool crafts. **At the shopping centre,** the **City Mall** is great for clothes, toys, and electronics. **On the street,** **Al-Madina Street** is fun for souvenirs and yummy street food.

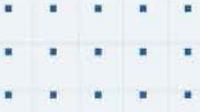

I love **Al-Balad Market** because it's so colorful and exciting!

Have fun shopping!

Best,
