****For items (1-35), read each sentence carefully then choose from A, B, C or D the correct answer that completes each sentence.**

- 1) If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time. If you are successful, it is a secure and rewarding job. It is a very responsible job. I am aware that if I translate things badly, it could affect an important law or trade agreement between countries. However, you get a huge feeling of satisfaction when you know that people understand everything that you translate.
- An interpreter gets a great feeling of satisfaction when he / she -----.

Question Two:

Read the following texts carefully, and then in your ANSWER BOOKLET answer all the questions that follow each text. Your answers should be based on the two texts.

(50 points)

Text One: (25 points)

Ibn Bassal was a writer, a scientist and an engineer who lived in Al-Andalus in the eleventh century CE. He worked in the court of Al-Ma'mun. His great passion was botany. Ibn Bassal was a practical man and all of his writing came from his own 'hands-on' experience of working the land. One of the many things which Ibn Bassal achieved was *A Book of Agriculture*. The book consisted of sixteen chapters which explain how best to grow trees, fruit and vegetables, as well as herbs and sweet-smelling flowers; perhaps the most famous chapter of all was the one that described how to treat different types of soil. He designed water pumps and new systems for irrigating plants.

The influence of Ibn Bassal's book was enormous. As farmers down the generations followed his instructions and advice, the land became wonderfully fertile and produced more than enough food for the fast-growing population. The irrigation systems that he and his followers put in place are still in evidence in Spain. Although his name is not widely known, Ibn Bassal's legacy to the world has been great.

1. Where did Ibn Bassal live? When? (4 points)
2. Quote the sentence which shows where all Ibn Bassal's writing came from. (5 points)
3. How many chapters did *A book of Agriculture* consist of? (4 points)
4. What does the most famous chapter of Ibn Bassal's book describe? (4 points)
5. Find a word in the text which means "supplying land with water so that the crops and plants will grow". (4 points)
6. What were the two benefits for farmers who followed Ibn Bassal's instructions? (4 points)

Text Two: (25 points)

In this report, we will look at the countries that Jordan trades with and what goods it exports and imports. First, let's look at exports. Jordan is rich in potash and phosphate, and the extraction industry for these minerals is one of the largest in the world.

Not surprisingly, two of Jordan's largest exports are chemicals and fertilisers. Pharmaceuticals and other industries represent 30% of Jordan's Gross Domestic Product (GDP), and 75% of Jordan's pharmaceuticals are exported. However, the majority (65%) of the economy is dominated by services, mostly travel and tourism. Most of Jordan's exports go to Iraq, the USA, India and Saudi Arabia.

Now let's look at imports. Unlike some other countries in the Middle East, Jordan does not have large oil or gas reserves. For that reason, Jordan has to import oil and gas for its energy needs. Its other main imports are cars, medicines and wheat. In 2013 CE, 23.6% of Jordan's imports were from Saudi Arabia. This was followed by the EU, with 17.6% of its imports. Other imports have come from China and the United States.

1. Most of Jordan's exports mainly go to four countries. Write two of these countries down.
(4 points)
2. What is the percentage that services, especially travel and tourism, represent of Jordan's economy?
(4 points)
3. Jordan is rich in two minerals. Write them down.
(4 points)
4. What does the underlined pronoun "it" refer to?
(4 points)
5. Quote the sentence which indicates the country that supplied Jordan with most of its imports in 2013.
(5 points)
6. What are the main four goods that Jordan has to import from different countries?
(4 points)

Question Three:

Writing: (10 points)

In your ANSWER BOOKLET, write a composition of about 80 words on ONE of the following:

1. A visit you have made to a museum or an art exhibition gallery. When and where was it and what did you enjoy the most? What are the benefits of such visits to people and to countries?
2. An informal letter to a friend describing your dream job. Describe what your dream job requires you to do and what you aren't allowed to do at work. Give reasons that make you choose this kind of job.

Question Two: (50 points)

Read the following two texts carefully, and then in your ANSWER BOOKLET answer all the questions that follow each text. Your answers should be based on the texts.

Text One: (25 points)

In many countries, an increasing number of young people and adults are overweight or even obese. One reason for this is the growing popularity of fast food, which didn't use to be as common as it is now. Another big factor is lack of exercise. Modern technology has also played its part; we spend more and more time focusing on computer screens. Before the Internet was invented, nobody had dreamt of online shopping, but now we can buy almost anything without leaving the sofa.

Health experts have been warning about this trend for years, and their advice is clear. Adults should aim to exercise for at least two and a half hours every week; for children and teenagers the target should be at least an hour a day. This might not sound very much. However, recent research shows that less than 50% of the British population manages this. They recommend a mixture of activities. These should include moderate exercise, such as fast walking, and more strenuous exercise, like running. They also advise exercise that strengthens the muscles, for example sit-ups. The more muscle we build, the more calories we burn, and the fitter we become. In addition, exercise is a great way to cope with stress.

1. The text states different reasons for higher rates of obesity. Write down three of these reasons. (6 points)
2. Mixture of activities is recommended by health experts to keep fit. Write down two examples of these activities. (6 points)
3. Write down the sentence which states that British people don't get enough exercise. (4 points)
4. What is the minimum amount of exercise recommended for adults? (3 points)
5. Increasing awareness of obesity among children is the responsibility of the parents. Think of this statement and, in two sentences, write down your point of view. (6 points)

Text Two: (25 points)

In England, almost 50% of school leavers go on to higher education. The figure has not always been as high as this. Before 1998 CE, higher education in the UK was completely free for UK citizens. Since then, tuition fees have been introduced. Most students borrow this money from the government. They don't have to repay it immediately. Instead, they pay it back slowly out of future savings.

Despite the high cost, most students choose to study away from home. For most young people, living away from home means borrowing even more money from the government. So why don't students choose to avoid debt by staying at home, where they don't have to pay rent? Most of them say that they want to move to the university of their choice, rather than the nearest one. Another strong motive is the desire to live in a new culture. Where do these students live? Many have rooms in halls of residence, especially in their first year; others rent flats or houses. A lucky minority live in property that their parents have bought for them. Most of them need to learn to cook, do their own washing and manage their time and money.

1. The text states three different places that students may live in when studying away from their homes. Write them down. (6 points)
2. Students who study away from their home should do some of the daily skills. Write down two of these skills. (6 points)
3. What does the underlined word (it) refer to? (4 points)
4. Find a word in the text which means "**teaching, especially in small groups**". (3 points)
5. Students who choose to study abroad face different cultural challenges. Suggest three possible ways they can do to cope up with these challenges. (6 points)

Question Three: (10 points)

Free Writing:

In your ANSWER BOOKLET, write a composition of about 120 words on ONE of the following:

1. During the last 100 years, Jordan achieved huge advances in different fields mainly in health and education. Write an essay discussing the reasons of these advances and their impacts on Jordanian society.
2. Some people believe that the main purpose of education is to help the individual to become useful for society, while others believe it should help individuals to achieve their ambitions. Discuss both sides and give your opinion.

Question Two : (20 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Ten-year-old Adeeb al-Balooshi, from Dubai, is going to travel to seven countries on a tour which has been organised and funded by Sheikh Hamdan bin Mohammad, Crown Prince of Dubai. The boy caught Sheikh Hamdan's attention with his invention – a prosthetic limb for his father. The Sheikh has taken a special interest in the boy, and hopes the tour that he is sponsoring for Adeeb will give the young inventor more self-confidence and inspire other young Emirati inventors.

Adeeb got the idea for a special kind of prosthetic leg while he was at the beach with his family. His father, who wears an artificial leg, could not swim in the sea as he could not risk getting his leg wet. This inspired Adeeb to invent a waterproof prosthetic leg.

Adeeb is going to visit the USA, France, the UK, Ireland, Belgium, Italy and Germany, where he will be staying with relatives. However, while he is in Germany, Adeeb will not be spending all his time sightseeing. He will be working with a specialist doctor to build the appendage. He will also be attending a course on prosthetics and learning about different kinds of medical apparatus.

Adeeb has invented several other devices, including a tiny cleaning robot and a heart monitor, which is attached to a car seat belt. In the case of an emergency, rescue services and the driver's family will be automatically connected with the driver through this special checking device. He has also invented a fireproof helmet. This special equipment, which has a built-in camera system, will help rescue workers in emergencies.

1. Shiekh Mohammed is interested in helping Adeeb for two reasons. Write them down. (4 points)
2. Adeeb will be doing different things in Germany during his tour. Write down three of them. (6 points)
3. Quote the sentence which states what inspired Adeeb to invent a waterproof prosthetic leg. (2 points)

Question Two : (20 points)

Read the following blog carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the blog.

My name is Anita. Two summers ago, I spent five months studying Arabic at the German-Jordanian University near Madaba. As my father is originally from Jordan, I grew up speaking Arabic as well as German. However, I had never studied Arabic formally, and when the opportunity came up for me to spend a year in Jordan studying Arabic, I didn't hesitate for one moment.

I have relatives in Jordan and they arranged for me to stay with a wonderful family who live just outside Madaba. I was amazed by the number of international students there, who were not only from Germany, but from all over the world. Most of them had studied Arabic to a high level. I'm very familiar with colloquial Arabic, which is what my family speaks and understands. The Arabic class, in Modern Standard Arabic, was challenging, especially the grammar. Every week, we had to learn a vocabulary list of around 50 words. We covered many topics. Living with a family helped to improve my Arabic-speaking skills because I could practice it at home. I really put my back into it, and I earned an A on the course.

What impressed me most about students in Jordan was their behaviour and their attitude to studying. All the students who I met appreciated the importance of their university education and the opportunities it would give them to contribute to their country's prosperity.

Question Two: (27 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Ibn Bassal was a writer, a scientist and an engineer who lived in Al-Andalus in the eleventh century CE. He worked in the court of Al-Ma'mun, who was the King of Toledo. His great passions were botany and agriculture. Although he was a great scholar, he was also a practical man and all of his writing came from his own 'hands-on' experience of working the land. One of the many things which Ibn Bassal achieved was *A Book of Agriculture*. The book consisted of sixteen chapters which explain how best to grow trees, fruit and vegetables, as well as herbs and sweet-smelling flowers. The most famous chapter of all was the one that described how to treat different types of soil. Ibn Bassal also worked out how to irrigate the land by finding underground water and digging wells.

The influence of Ibn Bassal's book was enormous. As farmers down the generations followed his instructions and advice, the land became wonderfully fertile and produced more than enough food for the fast-growing population. Although his name is not widely known, Ibn Bassal's legacy to the world has been great.

1. Ibn Bassal dealt with many agricultural topics in his book *A Book of Agriculture*. Write down three of these topics. **(9 points)**
2. The text states two main benefits for farmers who followed Ibn Bassal's instructions. Write down these two benefits. **(6 points)**
3. Ibn Bassal was regarded as a true polymath. Write down three examples of his areas of knowledge. **(3 points)**
4. Find a word in the text which means "the study of plants". **(3 points)**
5. Following one's passion means exploring areas of interest, developing skills in those areas and using those skills to add something to the welfare of the world. Think of this statement and, in two meaningful sentences, write down your point of view. **(6 points)**

Question Three: (33 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (27 points)

It is important to know some tips if you want to make a sales pitch

1 Do your research

Don't come away from a sales pitch wishing you had been better prepared. It is essential to know everything about your product. Do you know when it was developed, and where it is produced? You also need to know who the target market is – for example, the age group or income of the people who might buy it. Not only that, you should know all about the competition – that is, similar products on the market. Why is your product superior to others? In addition, you should know exactly which people you are speaking to, and what their needs are.

2 Prepare and practise

Plan your presentation carefully, not just what you will say, but how you will say it. Will you read it word by word, use notes or memorise it? Whatever you decide, it is always a good idea to have a list of your main points, in case something interrupts you or you simply freeze with nerves.

3 Be professional

Keep your presentation short and simple. Start with some friendly comments. For example, thank your hosts for allowing you to speak to them, and compliment their company. Remember to speak slowly and clearly. It is important to appear confident.

1. There are certain essential points one should research about a product before making a sales pitch. Write down three of these points. (9 points)
2. The text states two examples of friendly comments. Write them down. (6 points)
3. What does the underlined word "it" refer to? (3 points)
4. Write down the sentence which indicates the importance of listing the main points when doing a presentation, no matter how it is performed. (3 points)
5. The body language of a person who makes a sales pitch is helpful for increasing the sales. Suggest three possible gestures one can make to be successful in the field. (6 points)

B) Literature spot (6 points)

Read the following lines from *A Green Cornfield* carefully, and then answer the questions that follow:

*The earth was green, the sky was blue:
I saw and heard one sunny morn
A skylark hang between the two,
A singing speck above the corn;*

1. Find an example of alliteration in the lines above. (2 points)
2. What are the two things the skylark was hanging between? (4 points)

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

It's normal to feel a bit blue from time to time. However, studies show that negative emotions can harm the body.

Anger can also have harmful effects on health. When you see red, your blood pressure is raised and you can suffer from headaches, sleep problems and digestive problems. However, what about positive feelings and attitudes? Until recently, scientists had not investigated whether there is a link between positive feelings and good health.

Then, in a study that had followed more than 6,000 men and women aged 25 to 74 for 20 years, researchers found that positivity reduced the risk of heart disease. Other factors influencing health included a supportive network of family and friends, and an optimistic outlook on life.

The study has been controversial. Some health professionals believe that bad lifestyle choices, such as smoking or lack of exercise, are the reason for heart disease and other illnesses, and not an individual's attitude. The researchers, while agreeing, raise the question: why are people making bad lifestyle decisions? Do more optimistic people make better and healthier lifestyle choices?

The researchers appreciate that not everyone's personal circumstances and environment make it possible to live without worry. However, they believe that if we teach children to develop positive thinking, and to 'bounce back' after a setback, these qualities will improve their overall health in the future.

1. The text mentions some possible effects of anger on someone's health. Write down four of these effects. **(8 points)**
2. There are certain aspects that influence one's health positively. Write down two of these aspects. **(6 points)**

Question Three: (30 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (24 points)

Speaking a foreign language, it is claimed, improves the functionality of your brain in several different ways. Learning new vocabulary and grammar rules provides the brain with beneficial 'exercise', which improves memory. As well as exercising the brain, it is thought that learning a new language also presents the brain with unique challenges. These include recognising different language systems and ways to communicate within these systems.

According to a study carried out by Pennsylvania State University, USA, multilingual people are able to switch between two systems of speech, writing, and structure quite easily. It has been proved that they are also able to switch easily between completely different tasks. It also showed that multilingual participants were less distracted by the other tasks.

Finally, learning a foreign language can also improve your ability to use your mother tongue more effectively. As you become more aware of the way that a language works, you begin to apply it to the language that you use every day. The skills you obtain from learning a foreign language, therefore, can make you a better speaker and writer in your own language.

1. The study that was carried out by Pennsylvania State University came out with three main findings about multilingual people. Write them down. (9 points)
2. The text mentions different benefits of learning new vocabulary and grammar rules. Write down two of them. (4 points)
3. Write down the sentence which states the effect of the skills one gains from learning a foreign language. (3 points)
4. What does the underlined pronoun These refer to? (2 points)
5. Speaking English confidently is an important goal for many students. Suggest three possible ways to improve students' speaking skill. (6 points)

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

The concept of a megaproject is always based on the benefits it brings to a community. However, many megaprojects have been criticised because of their negative effects on a community or the environment. An example of megaprojects is Masdar City, which began its development in 2006 CE in Abu Dhabi. Masdar City will be the world's first carbon-neutral, zero-waste artificially-created city.

The city will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex. Furthermore, in order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways.

Energy will be provided by solar power and wind farms, and there are also plans to build the world's largest hydrogen plant. A desalination plant will be used to provide the city's water, with 80% of water used being recycled. Biological waste will be used as an energy source too, and industrial waste will be recycled. The current residents of Masdar City are all students at the Masdar Institute of Science and Technology, a university whose students are fully committed to finding solutions to the world's energy problems.

1. The text states many examples of renewable energy. Write down three of them.

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Business Studies is a popular choice for students who are choosing a degree course in the UK. After graduating, some go on to further study, but most of them take up employment. Many large companies offer graduate training schemes, which are a kind of apprenticeship. We went to meet twenty-two-year-old Ricky Miles, who is about to graduate in the subject. Ricky has been studying Business Studies, which is a four-year course, including two periods of work experience. Each one lasted six months, but they weren't in the same year. Besides Business Studies, Ricky has studied Maths, Accounting, Finance, Economics, Marketing and Sales over those four years. He also did a course in Management, which is about recruiting and managing staff.

Ricky most enjoyed the work experience. He learnt so much, both times, and of course it looks great on his curriculum vitae. One of the companies offered him paid work last summer, so he managed to get even more experience that way.

Ricky has just applied for a job with a bank. He has the right qualifications, but he knows there will be a lot of other applicants. He'll just have to wait and see if he gets an interview. If he does, he'll have to prepare really carefully.

1. The text states many subjects that graduate students may study at university. Write down three of them. (6 points)
2. What do most of students do after graduating? (6 points)
3. What is the name of Ricky's degree? (4 points)
4. What will Ricky have to do if he gets a job interview? (4 points)
5. Find a word in the text which means "finding suitable employees". (4 points)
6. How did Ricky spend a quarter of his time as a student? (6 points)

Question Two: (20 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

The King Hussein Cancer Center (KHCC) is Jordan's only comprehensive cancer treatment centre. It treats both adult and paediatric patients. As the population of the country increases, more and more families will rely on the hospital for cancer treatment. Patients come not only from Jordan but also from other countries in the region, as they are attracted by its excellent reputation, lower costs, and cultural and language similarities.

In order to cope with the increase in demand for treatment, the KHCC has begun an expansion programme. Building started in 2011 CE. The hospital will have more than doubled its capacity by 2016 CE, increasing space for new cancer cases from 3,500 per year to 9,000.

By then, they will have added 182 extra beds, along with bigger units for different departments, including radiotherapy. New adult and paediatric wards will have opened. Additionally, they will have built a special ten-floor outpatients' building, with an education centre which will include teaching rooms and a library.

Many cancer patients live far away from Amman, where the KHCC is located, and the journey to and from the hospital is often difficult. For this reason, there are plans to extend cancer care facilities to other parts of Jordan. In the near future, King Abdullah University Hospital in Irbid hopes to set up radiotherapy machines, so that cancer patients from northern Jordan will not have to go to Amman for radiotherapy treatment.

Question Two: (20 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (18 points)

A few years ago, as many as 1,000 schools across the USA started making school years longer by adding up to ten extra days to the school year or by making each school day longer by half an hour. This was because it was found that secondary school students in the USA and the UK were spending the least time at school, with an average school year of 187 days. The typical Jordanian school year is longer than this. However, none of these are nearly as long as the school year in countries like Japan and South Korea. South Koreans attend school for 220 days per year, and in Japan, the school year numbers 243 days.

According to a study by the Organisation for Economic Co-operation and Development (OECD), students in Japan, Indonesia and South Korea spend the most time studying in the world. They want to learn as much as they can to ensure excellent exam grades. They go to school for about nine hours, although this includes optional after-school tuition and activities. Their high academic achievements do suggest that the longer you study, the better you do in final exams.

In Finland, however, students are usually given less than half an hour of homework per night, and they attend school for fewer and shorter days than 85% of other developed nations. In addition, most students also speak at least two, and often three, languages fluently.

- 1- There are two ways that some American schools followed to make the school year longer. Write them down. (4 points)
- 2- There are two countries that have the longest school year. Write them down. (2 points)

- 6- Some experts still believe that the number and length of school days are the main factors to help students get improved in the school. Suggest another two factors that help students improve in their study. (4 points)

B) Read the following paragraph from "Around the World in Eighty Days" by Jules Verne and answer the question below.

"The elephant was led out and equipped. Provisions were purchased at Kholby, and, while Sir Francis and Mr Fogg took the howdahs on either side, Passepartout got astride the saddle-cloth between them. The Parsee perched himself on the elephant's neck, and at nine o'clock they set out from the village, the animal marching off through the dense forest of palms by the shortest cut".

-How many passengers travelled on the elephant? (2 points)

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Everyone knows that the Internet connects people, but now it does more than that – it connects objects, too. These days, computers often communicate with each other; for example, your TV automatically downloads your favourite TV show, or your 'sat nav' system tells you where you are. This is known as the 'Internet of Things', and there's a lot more to come.

In just a few years' time, experts say that billions of machines will be connected to each other and to the Internet. As a consequence, computers will increasingly run our lives for us. For example, your fridge will know when you need more milk and add it to your online shopping list; your windows will close if it is likely to rain; your watch will record your heart rate and email your doctor; and your sofa will tell you when you need to stand up and get some exercise!

Many people are excited about the 'Internet of Things'. For them, a dream is coming true. They say that our lives will be easier and more comfortable. However, others are not so sure. They want to keep control of their own lives and their own things. In addition, they wonder what would happen if criminals managed to access their passwords and security settings. The dream could easily become a nightmare!

1. The text states certain ways of how computers will easily run our lives. Write down three of these ways. (9 points)
2. Some people are uncertain about the 'Internet of Things' for two reasons. Write down these two reasons. (6 points)
3. Find a word in the text which has the same meaning as 'speak to'. (3 points)
4. There are two elements that are connected with each other through the Internet. Write them down. (6 points)
5. The 'Internet of Things' is expected to affect transport positively. Suggest three advantages of the 'Internet of Things' on transport. (6 points)

Question Three: (30 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Two summers ago, I spent five months studying Arabic at the German-Jordanian University near Madaba. I was amazed by the number of international students there, who were not only from Germany, but from all over the world. Most of them had studied Arabic to a high level. The Arabic class, in Modern Standard Arabic, was challenging, especially the grammar.

What impressed me most about students in Jordan was their behaviour and their attitude to studying. All the students who I met appreciated the importance of their university education. They also showed extremely positive values.

As someone who enjoys delicious food, beautiful places and friendly, hospitable people, studying in Jordan was one of the best decisions I have made in my life. I made many new friends. I also improved my Arabic speaking, writing and reading skills. My dream is to be fluent in Arabic one day – and as I intend to return to Jordan as often as I can, I know I'm going to make this dream a reality.

1. There are three reasons that made Anita decide to study in Jordan. Write them down. (6 points)
2. Different aspects impressed Anita about her fellow students at the university. Write down two of these aspects. (6 points)
3. Write down the sentence which states Anita's dream and her insistence to make this dream come true. (3 points)
4. What does the underlined word there refers to? (3 points)
5. Students who study abroad and live with foreign families might have positive impacts on their academic performance. Think of this statement and, in two sentences, write down your point of view. (6 points)

B) Literature spot (6 points)

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

The Arab world has many famous chemists in its history, but the person who is known as the founder of chemistry is probably Jabir ibn Hayyan. He is most well known for the beginning of the production of sulphuric acid. He also built a set of scales which changed the way in which chemists weighed items in a laboratory: his scales could weigh items over 6,000 times smaller than a kilogram.

Ali ibn Nafi' is also known as 'Ziryab' (or 'Blackbird', because of his beautiful voice). He was a gifted pupil of a famous musician from Baghdad, and it was his talent for music that led him to Cordoba in the ninth century CE. He was the guest of the Umayyad ruler there. He is the person who established the first music school in the world in Cordoba, Al-Andalus, teaching musical harmony and composition. He revolutionised musical theory, and is also the person who introduced the oud to Europe.

Al-Kindi was a physician, philosopher, mathematician, chemist, musician and astronomer – a true polymath. He made ground-breaking discoveries in many of these fields, but it is probably his work in arithmetic and geometry that has made him most famous.

1. The text states some important achievements that Ali ibn Nafi' made in music. Write down two of these achievements. (6 points)
2. There are two subjects that have made Al-Kindi a famous person. Write them down. (4 points)
3. What does the underlined pronoun "He" refer to? (4 points)

6. Write down the sentence which shows that Al-Kindi was a polymath. (6 points)

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

My name is Fatima Musa and I have worked as an interpreter for five years. At school I was very good at English. Therefore, I decided on a career as an interpreter.

My job now involves going to important conferences and seminars around the world. When a person speaks in English at a conference, I listen to what they say through headphones. I then translate into Arabic while the speaker is talking. I give the translation through headphones to other people at the meeting. This means that anyone in the room who speaks Arabic can understand what people are saying.

Is it an easy job? Not at all. English is not the same in all English-speaking countries. As well as knowing regional English, you also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language! If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time.

You will probably need to travel a lot, but that is not a problem as long as you enjoy visiting other countries. It is a very responsible job. I am aware that if I translate things badly, it could affect an important law or trade agreement between countries. However, you get a huge feeling of satisfaction when you know that people understand everything that you translate.

1. Fatima Musa does two things while translating at a conference. Write them down. (6 points)
2. Why does Fatima Musa decide to be an interpreter? (4 points)
3. There are two things an interpreter needs to know. Write them down. (4 points)
4. What is the effect of bad translation? (6 points)
5. What does Fatima's job involve? (6 points)
6. Find a word in the above text which means "a class on a particular subject, usually given as a form of training". (4 points)

Question Two: (20 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (20 points)

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2014 CE, 98 percent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years.

Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 percent of the country's population now has access.

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

The life expectancy figures show that Jordan's healthcare system is successful. In 1965 CE, the average Jordanian's life expectancy was age 50. In 2017 CE, this average life expectancy had risen to 74.6.

1. Advances in several fields have made Jordan's community healthier. Write down two of these fields. (4 points)
2. Why are health conditions in Jordan considered among the best in the Middle East? (3 points)
3. Write down the sentence which shows the number of healthcare centres and dental clinics that has been built during the past years. (3 points)

(18 points)

In this report, we will look at the countries that Jordan trades with and what goods it exports and imports.

First, let's look at exports. Jordan is rich in potash and phosphate, and the extraction industry for these minerals is one of the largest in the world. Not surprisingly, two of Jordan's largest exports are chemicals and fertilizers. Pharmaceuticals and other industries represent 30% of Jordan's Gross Domestic Product (GDP), and 75% of Jordan's pharmaceuticals are exported. However, the majority (65%) of the economy is dominated by services, mostly travel and tourism. Most of Jordan's exports go to Iraq, the USA, India and Saudi Arabia.

Now let's look at imports. Unlike some other countries in the Middle East, Jordan does not have large oil or gas reserves. For that reason, Jordan has to import oil and gas for its energy needs. Its other main imports are cars, medicines and wheat. In 2013 CE, 23.6% of Jordan's imports were from Saudi Arabia. This was followed by the EU, with 17.6% of its imports. Other imports have come from China and the United States.
