

**Q1: Read the texts and answer the questions:****(14 marks)****(A)**

Stage 5 is called the REM (Rapid Eye Movement) stage. Although our body is resting, our eyes are moving very quickly beneath our eyelids during this stage. Our heartbeat and breathing become faster, and this is when dreams are most frequent. This stage makes up about 20% to 25% of a young adult's sleeping time.

1-What is meant by REM?

2- What happens to our eyes during this stage?

3- How much does this stage make up of our sleeping time?

4-Find a word from the text which means "Fast"

**(B)**

Sleep is an essential part of life. Although we think of sleep as a time when we rest completely, it's actually a very busy period for the brain. Scientists claim that sleep is the time when information is sorted and stored by the brain. Sleep is important for reducing stress and keeping the heart, the immune system and the memory healthy.

1- Find a word from the text which means "Necessary and important".

2- Why is sleep important?

3- What happens to information while sleeping?

**Q2: Fill in the blanks with the correct words from the box, (5 marks)**  
one word isn't needed:

monitored – grateful – apnea – inability – snores – confident

- 1- The lady was \_\_\_\_\_ to the hospital staff after she had given a birth.
